

Mini-Combo™

Advanced UV Sealing System

Simpl-Coater™ adhesive applicator combined with Simpl-Seal® II UV sealer.

Ideal starter system for small clamshell packaging operations using mostly manual labor. Combines Partner Pak's Simpl-Coater™ roller adhesive applicator with our patented Simpl-Seal® UV light curing technology for a perfect seal; without the noise, sound waves, or heat created by other sealing systems. Reduces energy consumption by as much as 90% when compared to RF, sonic or heat sealing methods.

MODEL FEATURES:

- Access panel interlock
- Conveyor interlock
- Emergency shut-off switch
- Independent lamp control

SPECIFICATIONS:

- 18-inch feed in conveyor
- 30-inch UV curing chamber
- 18-inch run out conveyor
- One 10-inch 200 watt/inch UV lamp
- 12-inch wide wire mesh conveyor belt
- 6-foot overall length
- 10-inch wide roller coater
- Electrical: 230 VAC, 1 Ph, 20A

Protected by U.S. Patent No.: 6,601,342
