

Simpl-Seal® II

UV Package Sealing System

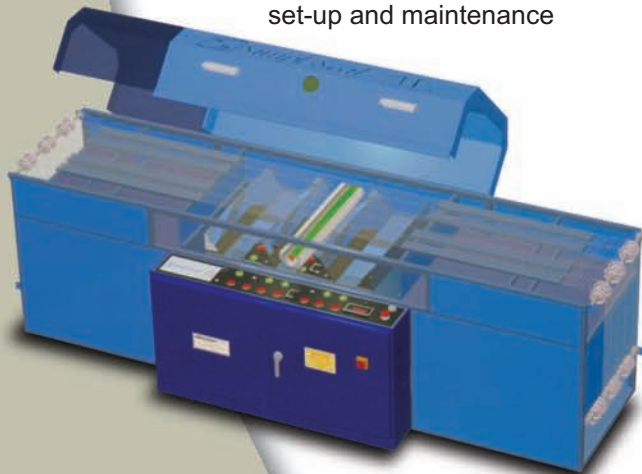

The new standard in clamshell sealing equipment.

The ultimate clamshell and blister pack sealing system utilizing Partner Pak's patented UV light sealing method. Built for high volume production, but still saves up to 90% in energy consumption compared to RF, sonic and heat sealing equipment.

Simpl-Seal® II can perform as a stand-alone unit, or in conjunction with the Simpl-Track® Workstation

Easy-access canopy for set-up and maintenance

STANDARD FEATURES:

- 25-inch wide wire mesh conveyor belt
- Adjustable conveyor speed up to 80 fpm
- Full feature control panel for all functions
- Emergency stop switch
- Time usage meter
- High power lighting system: 200/300 watts/inch all-purpose UV lamp
- UV assembly positioned below conveyor to render card and blister packages
- Lighting assembly drawer pulls out for easy lamp replacement
- Standard housing opening accomodates package heights up to 8 inches. Larger custom openings are available.

Simpl-Seal® is protected by U.S. Patent Nos.: 5,259,169 / 6,601,342. Other patents pending.
