

Fully-Automated Workstation

Partner Pak's lean, green packaging machine.

An exceptional step into automated packaging assembly. Designed to deliver steady pace production with features to provide as much automation as required, dependent upon your specific needs. A virtually limitless variety of configurations are always upgradeable to the next step, providing both a current solution and a scalable solution for future growth.

Touch-Screen Monitor

Simpl-Pick™ Automated De-nester

Simpl-Coater™ Roller Adhesive Applicator

Robotic Product Placement and/or Adhesive Application

Simpl-Seal® UV Light Sealant Curing Device

Basic package features motorized tracks that deliver manually filled packages to automated sealant application, pneumatic air knife / pressure roller package closure and UV sealing process. The advanced package could include the following features, providing the ultimate in automated package assembly:

- Interactive touch-screen monitor for instantaneous production changeovers (including computer, full controls and factory pre-programming)
- Motorized dual package "Triple track"
- Two-up dual package de-nester
- Robotic sealant application and/or product placement
- Top-coater sealant applicator (if necessary)
- Pneumatic air knife / pressure roller package closure assembly
- Simpl-Seal® UV sealant curing device
- Servo-driven computer controlled operation to facilitate production changeovers

Simpl-Track® is protected by U.S. Patent Nos.: 7,308,784 / 6,601,342. Other patents pending.
