

# Simpl-Seal® T-Series

## UV Package Sealing Systems

*The new standard in clamshell sealing equipment.*

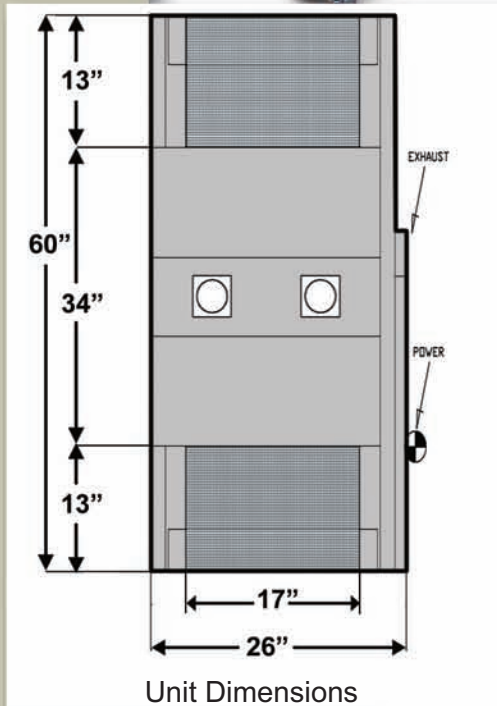

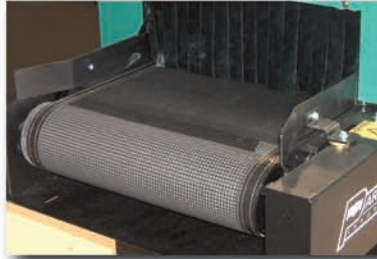

Simpl-Seal®  
Model 15T

Environmentally friendly and fiscally sound clamshell sealing system that uses Partner Pak's patented UV light sealing method. Simpl-Seal® saves up to 90% in energy consumption compared to RF, sonic and heat sealing equipment.

The T-Series features a top-focussed UV light source. It is available in a variety of configurations; all adaptable to operate in conjunction with the Simpl-Track® Workstation. UV chamber opening has a standard height of 5-inches. Larger custom opening sizes are available. Larger custom conveyor belt widths of up to 30" are also available. Call for pricing on custom models.

Normal delivery time on all units is 6 to 8 weeks, FOB Huntington Beach, CA.

### Teflon-coated mesh conveyor belt

### STANDARD SPECIFICATIONS:

#### **Model 15T - List Price: \$16,790**
